DETAILED ACTION

1. The IDS filed by Applicants on 07/18/03 and Amendment with Petition for Time Extension filed by Applicants on 08/11/03 have been entered.

Response to Amendment/Arguments

2. Applicant's amendment and arguments filed on 03/12/02 have been fully considered and they are found persuasive.

3. The rejection of claims 1-5 and 8-15 under 35 U.S.C. 103(a) as being unpatentable over the combination of JP Publication No. 09-143062 (hereinafter "'062"), JP Publication No. 04-266742 (hereinafter "'742"), International Publication No. WO 92/10154 (hereinafter "'154") and JP Publication No. 01-233212 (hereinafter "'212") is withdrawn.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at

Art Unit: 1713

the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

6. Claims 1-5 and 8-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over the combination of JP Publication No. 09-143062 (hereinafter "'062") and Ebert et al., WO 92/10154. '062 discloses a pressure sensitive adhesive composition that contains in prescribed amounts (a) an acrylic pressure-sensitive adhesive containing a copolymer, (b) a polyhydric alcohol, and (c) a prescribed fatty acid metal salt, and a tape containing the pressure sensitive adhesive useful in adhesive drug composition. '062 differs from the present invention in that '062 does not teach the combination of the polyhydric alcohol with a sorbitan ester compound and metal salt. Ebert teaches in

Art Unit: 1713

analogous art penetration enhancers consisting of a sorbitan ester in combination with a C₁₋₄ aliphatic alcohol. See Ebert, pages 14-16. In view of Ebert, one having an ordinary skill in the art would be motivated to modify '062 by using an penetration enhancer. Such modification would be obvious because one would expect that the use of adhesive compositions for percutaneous applications as taught by '062 would be similarly useful and applicable to the penetration enhancer taught in Ebert.

Conclusion

7. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 07/18/03 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

8. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened

Art Unit: 1713

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
